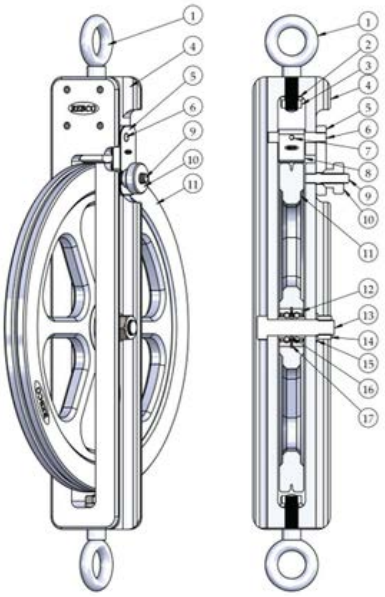
REBCO TYPE *AO* HAY PULLEY ASSEMBLY with 16" SHEAVE

Product Code: 124 **Assembly Number: 124002016000**

Rebco Type *AO* Hay Pulley Assembly is used to control the wireline from a Wireline Unit to the Stuffing Box sheave, thus reducing the side pull force to the Lubricator stack.

Rebco Type *AO* Hay Pulley is engineered to accept *Rebco* Type *LW* Line Wiper Assembly.

Available with Spokes or Solid Sheave.



DET	PART NAME	QTY
1	EYE BOLT	2
2	WASHER	2
